Hard Skill

- **Programming Language and Frameworks:**
- JavaScript, Vue.js and Nuxt.js
- Node.js
- **Postman**: Postman sending request like GET – POST- DELETE –PATCH – PUT
- **MongoDB**: Experienced with CRUD operations and very much familiar with this.
- **AWS Logs Management**:
- configured and managed AWS CloudWatch Logs for real time monitoring and troubleshooting
- Optimized log retention policies to reduce infrastructure costs while maintaining compliance.
- **Basic DevOps Skills:**
- Understanding of CI/CD pipelines
- Merge Request Handling
- Commits
- **Express.js:**
- Hands on experinece on creating the basic API's

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

- 2016 - 2020 AVS Engineering College, Anna university

  B.E - ECE with 80%

Achievements

- Received a performance appraisal, In recognition of consistently high-quality work and problem-solving skills at ANB Systems pvt ltd.

About Me

Results-driven software developer with 3+ years of experience in developing and implementing high-quality software solutions. Proficient in multiple programming languages and frameworks, with a strong emphasis on problem-solving and attention to detail. Demonstrated ability to delivering projects on time and exceeding client expectations. Committed to staying up-to-date with the latest industry trends and continuously enhancing technical skills.

Professional Experience

Software Developer | ANB Systems pvt ltd
2021 – Present

Key responsibilities:

- **Full-Stack Development**: Crafting end-to-end solutions by seamlessly integrating Vue.js for front-end and Node.js for back-end development.
- **Server-Side Rendering (SSR)**: Implementing Nuxt.js's SSR capabilities to enhance SEO and improve initial page load performance.
- **Database Interaction**: Integrating databases like MongoDB or PostgreSQL on the back end using Node.js for data storage and retrieval.
- **Middleware**: Implementing middleware for tasks such as authentication, authorization, and data preprocessing on both the Vue/Nuxt and Node.js sides.
- **Authentication and Security**: Ensuring secure API endpoints and user interactions by implementing user authentication and authorization mechanisms.
- **Cross-Functional Collaboration**: Collaborating closely with designers, front-end developers, and other stakeholders to deliver cohesive, feature-rich applications.
- **Continuous Learning**: Staying updated with the latest trends, tools, and best practices in Vue.js, Nuxt.js, and Node.js development to drive innovation.
- **Data Migration**: By using Node.js, handled the data migration.
- **Projects Level Experience:** Worked on client based projects for 3+ years by using the re-usable components in vue, nuxt.js and API integration with the front end and third party integration etc.
- Worked on 10+ project immensively on the client demands.
- I played a significant role in both the implementation phase and in providing dedicated assistance based on client requirements.
